ENGGM-AMS 14 February 1967

	Items	Date Shipped
3.	Test Films	10 January 1967
	a. Two rolls, 5" width	
	b. Three rolls, 9½" width	
	c. Three rolls, 70mm width	
4.	Empty Spools	2 February 1967
	a. Two, 5" spools	
	b. Two, 9½" spools	
	c. Two, 70mm spools	
5.	Eight Circuit Boards	8 February 1967

The test films as listed in the referenced letter were re-spooled many times during the attempted final acceptance test; consequently, the designation of test roll "101-L", "102-L", etc., was obliterated. Perhaps the eight rolls of test films listed constitutes all of those cited in the referenced letter; if not, it is not a serious matter as most of the films were government furnished property.

Sincerely yours,

STAT
